Bachelor of Science in Computer Engineering – Hardware.

Personal Projects

MemorizeForever

MemorizeForever is an iOS app for learning words or any phrases in different languages or simply memorize the formula and other hard to remember information. The algorithm is based on Sebastian Leitner's method.

The source code is accessible through GitHub.

<https://github.com/hadiz>

The app is available on the App Store.

<https://itunes.apple.com/us/app/memorizeitforever/id1352050968?ls=1&mt=8>

Blog

I started to share my knowledge with the community that I learned a lot from. To do so, I write on my blog. It is accessible from this link:

<https://hadiz.github.io/Blog/>
